

# ICL NPS

Introducing new fertilizer

10-42-0-10S

Precision nutrition for a wide range of crops

## Main features

- Compound nitrogen-phosphate fertilizer with sulfur
- All-in-one homogeneous granule provides consistent nutrient distribution with every application
- Uniform, non-hygroscopic NPS provide good stability, blending and easy application
- Versatile product; excellent source of N, P and S for all crops and soils

## Key advantages

- Contains two forms of sulphur: sulphate and elemental sulphur for season-long nutrition
- All NPS nutrients are fully soluble and available for plant uptake
- An excellent starter fertilizer for corn, soybean, and other field crops
- Low nitrogen formulation is ideal for nitrogen-fixing legumes
- Can be blended with urea and other dry fertilizers
- Contains ammonium form of nitrogen which acidifies the soil, improving nutrient uptake

# ICL NPS

## 10-42-0-10S

PRODUCT	GRADE
ICL NPS 10-42-0-10S	Granular

Chemical analysis	Typical	Guaranteed
Total N	10.8%	10.0%
Total P <sub>2</sub> O <sub>5</sub>	42.3%	42.2%
Total S	10.3%	10.0%
S in form of SO <sub>4</sub>	4.15%	4.0%
S in form of elemental S	6.15%	6.0%
H <sub>2</sub> O	1.7%	2.0%

Particle size distribution	
Mesh size (mm)	Passing particles
4.80	100%
2.00	40% max
1.00	5% max
2.00-4.00	95% typical

Reagent addition	
Coating oils	Added

Physical & chemical properties	
Bulk density	65.55 lb/ft <sup>3</sup>
Angle of repose	30°
Color	Brown (coated)

Metals analysis available upon request.  
Trace element analysis is available on request.
